

IMPACT MASTERCLASS

KWM's Impact Masterclass Project ("IMP") combines the legal expertise of its lawyers, along with insights from its commercial clients to build on core legal and specialist knowledge and skills in an adaptive and tailored forum for not-for-profit and community organisations.

IMP workshops focus on key legal issues and emerging trends in the community sector and facilitate discussion and engagement with the areas covered. Workshop participants will advance their practical skills and legal knowledge and have the opportunity to seek further tailored assistance.

Artist: Bianca Gardiner, Coastal Connection

Sessions are delivered monthly

Live webinar Workshops will be available to pre-registered community organisations outside of the host centre via live webinar.

Stream 1

Legal skills & knowledge masterclass workshops

The legal skills & knowledge workshops offer an opportunity for legal, compliance and management staff to participate in practical sessions to enhance your organisation's legal capability & practices.

Stream 2

Professional skills and knowledge masterclass workshops

The professional skills & knowledge component of IMP focuses on non-legal skills, which aim to streamline and support the way our community partners are able to operate their organisations.

Interested? If you are interested in being invited to attend an IMP session, please contact:
